Tehama-Colusa Canal			\$48.98	\$30.18
		Dunnigan WD Westside WD		
San Luis Canal			\$52.66	\$28.97
		Westlands WD-SLC San Luis WD-SLC		

Note: All rates are based on the 2008 cost of service rate, the most common repayment rate in the CVP. High rate is based on the contract which pays the highest rate in each unit. Lowest rate is based on the contract that pays the lowest rate in that unit. The rate is not the rate the contractors charge their customers. Sacramento River unit has both riparian and contract supplies. The rates provided are for the contract supplies only. This covers 90% of the rates charged to CVP customers. The other 10% is far more complicated.
